CLEARINGHOUSE
FOR FEDERAL SCIENTIFIC AND TECHNICAL INFORMATION

U. S. DEPARTMENT OF COMMERCE / NATIONAL BUREAU OF STANDARDS / INSTITUTE FOR APPLIED TECHNOLOGY

December 15, 1967 Volume 18, Number 11

TECHNICAL TRANSLATIONS

Issued twice a month by the Clearinghouse for Federal Scientific and Technical Information. Annual subscription $12 ($4 additional for foreign mailing). Single copy $3. Make remittance payable to the CLEARINGHOUSE and mail to a U. S. Department of Commerce Field Office or to the Clearinghouse, Springfield, Va. 22151. Address changes should be sent to the Clearinghouse.

PURPOSE

TECHNICAL TRANSLATIONS announces to the public the availability of English translations of scientific and technical literature prepared by Government and private sources. "Translations in Process" are also announced.

FORMAT

Bibliographic citations are listed alphanumerically by specific subject groups within general subject fields according to the COSATI Subject Category List. References to the original source text are given as they appear on the translations and the Clearinghouse assumes no responsibility for their accuracy. Indexes provide access points to the literature cited in this journal.

HOW TO ORDER

Each bibliographic entry contains the acronym of the agency from which the translation may be ordered; these are keyed to the ordering addresses listed in the "Directory of Sources" located at the back of the journal. Order by title and the number indicated in the citation. Translations available from the Clearinghouse are priced at $3 for paper copy (HC) reproduction and $.65 for microfiche (MF) reproduction. Use of Clearinghouse Coupons for the purchase of Clearinghouse Documents is encouraged. For documents available from other sources, make check or money order payable to the agency indicated.

The Clearinghouse accepts United Nations Educational, Scientific and Cultural Organization (UNESCO) coupons for Clearinghouse documents. However, the use of Clearinghouse prepaid document coupons when ordering documents from the Clearinghouse has many advantages. It eliminates the use of an exchange bank each time you order a document. You can avoid fluctuation in the exchange rates. UNESCO coupons may be redeemed for Clearinghouse document coupons.

Clearinghouse coupon order forms are printed in this journal.

REFERENCE SERVICE

Reference services for the location and identification of translated materials, completed or in process, are provided by the Clearinghouse, Special Libraries Association Translations Center, and the European Translations Center. Mailing addresses are listed in the "Directory of Sources."

Use of Funds for printing this publication approved by the Director of the Bureau of the Budget, November 17, 1966.

special ANNOUNCEMENTS

TERMINATION OF TECHNICAL TRANSLATIONS JOURNAL

The Technical Translations (TT) announcement journal published by the Clearinghouse will be discontinued after December 1967 (Vol. 18, No. 12, Dec. 30, 1967). Beginning in 1968, all U. S. Government-sponsored technical translations will be announced in the Clearinghouse journal, U. S. Government Research and Development Reports (USGRDR). The first issue of USGRDR announcing these translations will be Vol. 68, No. 1, Jan. 10, 1968. USGRDR subscription rates are $30.00 a year ($37.50 foreign); single copies cost $3.00. All reports, including translations, announced in USGRDR will continue to be indexed in the companion journal, U. S. Government Research and Development Reports Index (USGRDR-I), formerly called Government-Wide Index (GWI). USGRDR-I subscription rates are $22.00 a year ($27.50 foreign); single copies cost $3.00.

After December 30, 1967, translations not sponsored by U. S. Government agencies will not be announced by the Clearinghouse. These translations are now announced in both the Translations Register-Index published by the Special Libraries Association Translations Center, and in the ETC Quarterly Index published by the European Translations Centre. The Clearinghouse will continue to provide reference information and attempt to answer specific queries on all translations, both Government-sponsored and non-Government-sponsored.

Translations Register-Index is available from the SLA Translations Center, John Crerar Library, 35 West 33rd Street, Chicago, Illinois 60616, at $30.00 per year.

ETC Quarterly Index is available from the European Translations Centre, 101, Doelenstraat, Delft, The Netherlands, at $25.00 per year.

Bibliography-Index to US JPRS Research Translations, listing all JPRS issues in subject compilations including their complete table of contents and subject index is available from Research and Microfilm Publications, Inc., Suite 430, 2233 Wisconsin Ave., N. W., Washington, D. C. 20007. Four titles are issued monthly: China and Asia, East Europe, International Developments (Africa, Near East, Latin America) and Soviet Union. Subscription cost: $30.00 per year for each area. Two semi-annual publications are also issued: Catalog Cards in Book Form for US JPRS Translations, arranged in JPRS publication number sequence with detailed contents for each translation ($95.00 per year) and Subject-Index to US JPRS Translations ($20.00 per year). Microfiche copies of individual JPRS translations are available on subscription at $0.32 per microfiche.

PREFACE

The work of translating the materials listed in this journal is being done at many domestic and foreign points by government, commercial translators, publishers, and universities. Among them are the Joint Publications Research Service (JPRS), which translates foreign literature at the request of other Federal Agencies; and the Special Foreign Currency Science Information Program (SFCSI), administered by the National Science Foundation, which produces translations prepared in participating countries of Israel, Poland, and Yugoslavia. The Special Libraries Association (SLA) collects translations from non-government sources, domestic and foreign, and the Clearinghouse (CFSTI) from foreign and U. S. Government sources.

The Cyrillic-English transliteration standard used by the Clearinghouse is similar to that endorsed by the National Federation of Science Abstracting and Indexing Services (NFSAIS). This standard makes minimum use of diacritical marks and is a slight modification of the Russian portion of the British Standard Institution's system for Cyrillic-English transliteration. This standard has been recommended by the USA Standards Institute Sectional Committee Z39, Library Work and Documentation.

Commercial translators may have their work cited in this journal by sending the bibliographic and availability information to the Clearinghouse.

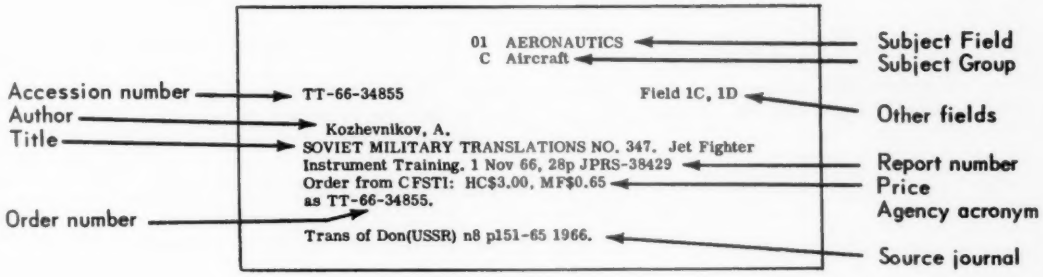
JPRS translations announced in this journal are also available from Research and Microfilm Publications, Inc., on 35-mm microfilm reels at about six-tenths of one cent per page reproduced. Single titles, serials, and subscriptions are available. For more information and pricing, write to: Research and Microfilm Publications, Inc., P. O. Box 267, Annapolis, Md. 21404.

Readex Microprint Corporation offers a microproduction edition by year of all JPRS reports listed in the Government Printing Office *Monthly Catalog of U. S. Publications*. The microprint editions are sold on subscription. Single editions are not available. For price information, write to: Readex Microprint Corporation, 5 Union Square, New York, N. Y. 10003.

SAMPLE ENTRIES

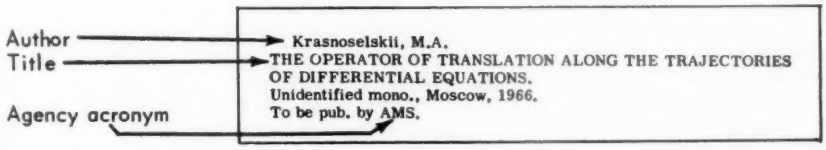
• BIBLIOGRAPHIC ENTRY

Entries are arranged alphanumerically by *accession number* within the COSATI Field/Group.



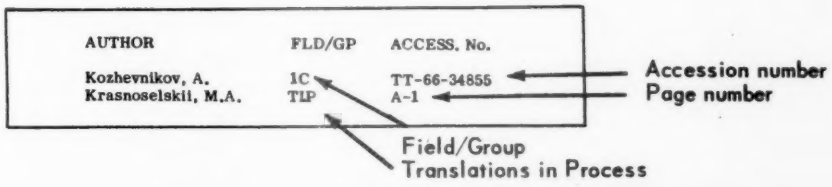
• TRANSLATIONS IN PROCESS

Entries are arranged alphabetically by personal author.



• INDEX ENTRIES

Index entries provide the location of the document announcement in the journal by supplying either the *accession number and Field/Group,* or in the case of "Translations in Process" the *page* on which the document is cited. The following example is taken from the Author Index; Journal and Number Indexes use the same system.



CONTENTS

		Page
01	AERONAUTICS	1

Includes aerodynamics; aeronautics; aircraft; aircraft flight control and instrumentation; and air facilities. See also related fields: 16 Missile Technology, 17 Navigation, Communications, Detection, and Countermeasures, 20 Physics, and 22 Space Technology.

02	AGRICULTURE	1

Includes agricultural chemistry; agricultural economics; agricultural engineering; agronomy and horticulture; animal husbandry; and forestry. See also related field: 06 Biological and Medical Sciences.

03	ASTRONOMY AND ASTROPHYSICS	3

Includes astronomy; astrophysics; and celestial mechanics.

04	ATMOSPHERIC SCIENCES	3

Includes atmospheric physics and meteorology.

05	BEHAVIORAL AND SOCIAL SCIENCES	3

Includes administration and management; documentation and information technology; economics; history, law and political science; human factors engineering; humanities; linguistics; man-machine relations; personnel selection, training, and evaluation; psychology (individual and group behavior); and sociology. See also related field: 06 Biological and Medical Sciences.

06	BIOLOGICAL AND MEDICAL SCIENCES	8

Includes biochemistry; bioengineering; biology; bionics; clinical medicine; environmental biology; escape, rescue, and survival; food; hygiene and sanitation; industrial (occupational) medicine; life support; medical and hospital equipment and supplies; microbiology; personnel selection and maintenance (medical); pharmacology; physiology; protective equipment; radiobiology; stress physiology; toxicology; and weapon effects. See also related fields: 02 Agriculture, 05 Behavioral and Social Sciences, and 07 Chemistry.

07	CHEMISTRY	13

Includes chemical engineering; inorganic chemistry; organic chemistry; physical chemistry; and radio and radiation chemistry. See also related fields: 06 Biological and Medical Sciences, 11 Materials, 20 Physics, and 21 Propulsion and Fuels.

08 EARTH SCIENCES AND OCEANOGRAPHY 21

Includes biological oceanography; cartography; dynamic oceanography; geochemistry; geodesy; geography; geology and mineralogy; hydrology and limnology; mining engineering; physical oceanography; seismology; snow, ice, and permafrost; soil mechanics; and terrestrial magnetism. See also related field: 04 Atmospheric Sciences.

09 ELECTRONICS AND ELECTRICAL ENGINEERING 25

Includes components; computers; electronic and electrical engineering; information theory; subsystems; and telemetry. See also related fields: 10 Energy Conversion (Non-propulsive) and 20 Physics.

10 ENERGY CONVERSION (Non-Propulsive) 26

Includes conversion techniques; power sources; and energy storage. See also related fields: 09 Electronics and Electrical Engineering and 20 Physics.

11 MATERIALS 26

Includes adhesives and seals; ceramics, refractories, and glasses; coatings, colorants, and finishes; composite materials; fibers and textiles; metallurgy and metallography; miscellaneous materials; oils, lubricants, and hydraulic fluids; plastics; rubbers; solvents, cleaners, and abrasives; and wood and paper products. See also related fields: 07 Chemistry, 13 Mechanical, Industrial, Civil, and Marine Engineering, and 21 Propulsion and Fuels.

12 MATHEMATICAL SCIENCES 32

Includes mathematics and statistics and operations research. See also the specific field of application.

13 MECHANICAL, INDUSTRIAL, CIVIL, AND MARINE ENGINEERING .. 32

Includes air conditioning, heating, lighting, and ventilating; civil engineering; construction equipment, materials, and supplies; containers and packaging; couplings, fittings, fasteners, and joints; ground transportation equipment; hydraulic and pneumatic equipment; industrial processes; machinery and tools; marine engineering; pumps, filters, pipes, tubing, fittings, and valves; safety engineering; and structural engineering. See also related fields: 07 Chemistry and 09 Electronics and Electrical Engineering.

14 METHODS AND EQUIPMENT 35

Includes cost effectiveness; laboratories, test facilities, and test equipment; recording devices; reliability; and reprography.

15 MILITARY SCIENCES 35

Includes antisubmarine warfare; chemical, biological, and radiological warfare; defense; intelligence; logistics; nuclear warfare; and operations, strategy, and tactics. See also related fields; 16 Missile Technology and 17 Navigation, Communications, Detection and Countermeasures.

16 MISSILE TECHNOLOGY ..... No Entries

Includes missile launching and ground support; missile trajectories; missile warheads and fuzes; and missiles. See also related fields: 01 Aeronautics, 17 Navigation, Communications, Detection, and Countermeasures, 19 Ordnance, 21 Propulsion and Fuels, and 22 Space Technology.

17 NAVIGATION, COMMUNICATIONS, DETECTION, AND COUNTERMEASURES 35

Includes acoustic detection; communications; direction finding; electromagnetic and acoustic countermeasures; infrared and ultraviolet detection; magnetic detection; navigation and guidance; optical detection; radar detection; and seismic detection. See also related fields: 09 Electronics and Electrical Engineering and 20 Physics.

18 NUCLEAR SCIENCE AND TECHNOLOGY 36

Includes fusion devices (thermonuclear); isotopes; nuclear explosions; nuclear instrumentation; nuclear power plants; radiation shielding and protection; radioactive wastes and fission products; radioactivity; reactor engineering and operation; reactor materials; reactor physics; reactors (power); reactors (non-power); and SNAP technology. See also related fields: 07 Chemistry, 15 Military Sciences, 18 Nuclear Science and Technology, 20 Physics, and 21 Propulsion and Fuels.

19 ORDNANCE ..... No Entries

Includes ammunition, explosives; bombs; combat vehicles; explosions, ballistics, and armor; fire control and bombing systems; guns; rockets; and underwater ordnance. See also related field: 18 Nuclear Science and Technology.

20 PHYSICS 37

Includes acoustics; crystallography; electricity and magnetism; fluid mechanics; masers and lasers; optics; particle accelerators; particle physics; plasma physics; quantum theory; solid-mechanics; solid-state physics; thermodynamics and wave propagation. See also related fields: 03 Astronomy and Astrophysics, 07 Chemistry, 09 Electronics and Electrical Engineering, 10 Energy Conversion (Non-propulsive), 11 Materials, 13 Mechanical, Industrial, Civil, and Marine Engineering, and 17 Navigation, Communications, Detection, and Countermeasures.

21 PROPULSION AND FUELS 39

Includes air-breathing engines; combustion and ignition; electric propulsion; fuels; jet and gas turbine engines; nuclear propulsion; reciprocating engines; rocket motors and engines; and rocket propellants. See also related fields: 07 Chemistry and 20 Physics.

22 SPACE TECHNOLOGY ..... No Entries

Includes astronautics; spacecraft; spacecraft trajectories and reentry; and spacecraft launch vehicles and ground support. See also related fields: 01 Aeronautics, 03 Astronomy and Astrophysics, 16 Missile Technology, 17 Navigation, Communications, Detection, and Countermeasures, and 21 Propulsion and Fuels.

CUMULATIVE INDEXES

The Clearinghouse announces cumulative indexes to Technical Translations, covering Volume 13, January through June 1965; Volume 14, July through December 1965; Volume 15, January through June 1966; and Volume 16, July through December 1966.

Index entries provide the document announcement location in individual Technical Translations issues by supplying the issue number, field/group, and accession number for an author listing, a journal listing, and a report number listing.

The Indexes are priced at $3.00 per volume. Order by title: Cumulative Index to Technical Translations, and by volume number.

U. S. DEPARTMENT OF COMMERCE FIELD OFFICES
PROVIDE READY ACCESS TO COMMERCE SERVICES

• The Department of Commerce maintains Field Offices in the cities listed below for the purpose of providing ready access to the reports, publications, and services of the Business and Defense Services Administration, Bureau of International Commerce, Clearinghouse for Federal Scientific and Technical Information, Office of Business Economics, and the Bureau of the Census. Information on activities of the National Bureau of Standards, Patent Office, and the Economic Development Administration is also available.

• Experienced personnel will gladly assist in the solution of specific problems, explain the scope and meaning of regulations administered by the Department, and provide practical assistance in the broad field of domestic and foreign commerce. Field offices act as official sales agents of the Superintendent of Documents and stock a wide range of official Government publications relating to business. Each office maintains an extensive business reference library containing periodicals, directories, publications, and reports from official as well as private sources.

• Approximately 600 Chambers of Commerce, Manufacturers Associations, and similar business groups are official Cooperative Offices of the Department where many of the basic publications and reports of the Department are on file and available for consultation. If specific information is not on hand in the Cooperative Office, your problem will be referred to the nearest Department field office.

• These facilities have been established to assist you. You are invited to use them.

The Clearinghouse can serve you better if you use them.

Clearinghouse prepaid document coupons are tabulating cards with the face value of the purchase prices of paper copies or microfiche copies of documents. Almost all of the documents in the Clearinghouse collection are now priced at $3.00 each for paper copies and 65 cents in microfiche.

The coupon is your method of payment, order form, shipping label, and receipt of sale. When you order documents on coupons your request moves quickly from our mail room to our warehouse for prompt handling and shipment. Your order is controlled along the way by data processing equipment.

The new Clearinghouse single price/coupon sales system saves you time in another way, too—you do not have to inquire about prices before ordering.

If you haven't placed your first order for Clearinghouse coupons yet, why not use the order form inside.

DIRECTORY OF SOURCES

Listed below are the symbols for sources from which translations may be purchased. Each entry in the Technical Translations indicates by the symbol the source from which the translation should be ordered, the cost of the translation (if known), and the number by which the translation may be ordered, if such a number exists. (See inside front cover "How to Order.") Additions or deletions will be shown at the end of the list. The entire list will be updated quarterly.

TRANSLATED or ABSTRACTED PUBLICATIONS

December 30, 1967

This List includes translations or abstracts prepared from journal sources covering one or more related subject areas. Entries preceded by a star indicate foreign publications announced for translating or abstracting by the publisher, but which may not yet be available.

Entries are arranged alphabetically by foreign title followed by the title of the translated journal. Cross-references from the English titles are interfiled in the List. A few entries do not have an English title.

The volume and issue number indicated in the entries refer to the foreign publication. However, publications containing selected translated articles taken from various foreign sources may carry their own volume number. Frequency of the publication indicated is that of the translated issues.

It should be noted that the Akademiya Nauk SSSR Doklady is published in the Soviet Union three times per month. The Russian volume consists of six issues containing articles on various scientific subjects. Of the many Doklady entries in this List, each contains translated articles on a given subject selected from several consecutive original Russian issues.

Availability of individual publications is indicated by an acronym of the ordering source. Acronyms are fully identified in the "Sources of Translated or Abstracted Publications" at the end of the List. In the future, publications included as available from the Clearinghouse will be listed in United States Government Research and Development Reports as soon as the translated issue is received.
